JutJut's Safeguarding guide for schools

JutJut is a free app and website where 14 to 18 year olds find work experience, summer schools, competitions and scholarships. Here is how it keeps them safe.

14 and over only

We check the date of birth every time it is entered or changed. After a refused sign-up, the device cannot try again for 24 hours.

No photos, files or videos

Students cannot upload photos, videos or files. Posts are text only, up to 280 characters.

Private by default

A student can be found only by their exact username. New posts are seen only by accepted contacts unless the student chooses public.

Report and block

Students can report bullying, self-harm, scams and more; reports are handled against a set deadline. A block hides each side from the other.

No private messaging

Every conversation happens in the open, where it can be seen and reported.

Checked before appearance

Every post, comment and username passes automated moderation first. A student can appeal a decision.

Organisations cannot make contact

Organisation accounts cannot search for students or send contact requests. They must be verified before they can answer public questions, and replies are public

Quiet notifications

At most 3 notifications a day, none between 10pm and 7am. Each type can be switched off.

What we never collect

Students sign up with a username, not their real name. We never collect phone numbers, schools, precise locations, gender

Our commitment to UK legislation

- **UK GDPR & Data Protection Act 2018:** Protecting personal data and privacy.
- **ICO Children's Code:** Prioritising children's safety and privacy by design.
- **Online Safety Act 2023:** Preventing harmful content and supporting safer interactions.
- **PECR:** Managing cookies and electronic communications responsibly.

How to Follow Your Pupils' Career Activities

A simple way to see which opportunities your pupils have explored, applied for and taken part in.

1. How pupils share their activity with you

1. **Saving opportunities:** Pupils need to save the opportunities they are interested in using the pin icon.
2. **Update their progress:** From their profile a student picks: 'share my activity' and indicates whether they: applied, took part or are interested
3. **Share their activity:** Pupils send you a link to their activity via Teams, Outlook or another messaging platform
4. **View and export:** Open the link to see the opportunities they have saved, including organisers, dates and progress. Copy the information as a table or download it as a spreadsheet for your records.

2. Supporting Gatsby Benchmark reporting

Where relevant, JutJut opportunities are labelled "May count towards" the following Gatsby Benchmarks:

5. **Benchmark 5:** Opportunities involving meaningful interactions with employers and working professionals.
6. **Benchmark 6:** Opportunities providing first-hand experience of working environments
7. **Benchmark 7:** Opportunities connecting pupils with colleges, universities and other education providers

3. Privacy and information sharing

- **30-day access:** Shared links remain active for 30 days. Pupils can stop sharing at any time
- **Pupil privacy:** Activity pages display usernames rather than real names. Ask pupils to include their names when sending links
- **Self-reported progress:** Pupils select their own activity status. JutJut does not independently verify participation
- **No school tracking:** JutJut does not record which school a pupil attends
